
Professional Experience

Oncology Registered Nurse – Inpatient Oncology Unit

Mayo Clinic, Phoenix, AZ | September 2017 - Present

- Administer chemotherapy, immunotherapy, and targeted therapies to an average of 15 oncology patients per shift, closely monitoring for adverse reactions
- Educate patients and families on treatment plans, side effects, and symptom management, improving treatment adherence by 30%
- Collaborate with oncologists, social workers, and palliative care teams to ensure holistic patient care
- Lead an initiative to reduce chemotherapy-related hospital readmissions, decreasing occurrences by 20%

Registered Nurse – Outpatient Oncology Clinic

Banner MD Anderson Cancer Center, Phoenix, AZ | June 2013 - September 2017

- Provided direct patient care in a high-volume outpatient chemotherapy infusion center, treating 25+ patients daily
- Managed central lines, ports, and IV infusions while monitoring for signs of infection or complications
- Assisted in implementing a patient education program that improved chemotherapy side effect management and reduced emergency visits by 15%
- Supported patients and families through end-of-life care planning, working closely with palliative care specialists
