Professional Experience

March 2019 - Present

Public Health Registered Nurse

Massachusetts Department of Public Health, Boston, MA

- Conduct health screenings and provide immunizations for an average of 200+ community members monthly, reducing the spread of preventable diseases
- Develop and implement health education programs on topics such as diabetes management, nutrition, and sexual health, improving community engagement rates by 30%
- Collaborate with local organizations to provide health care resources to low-income and underserved populations
- Lead contact tracing efforts during public health emergencies, preventing the spread of infectious diseases

September 2017 - March 2019

Registered Nurse – Community Health Clinic

Boston Medical Center, Boston, MA

- Provided direct patient care and case management for uninsured and underinsured individuals, improving access to preventive care services
- Assisted in managing a childhood vaccination program, increasing immunization compliance rates by 25%
- Educated patients on chronic disease prevention and lifestyle modifications, leading to a 15% improvement in patient adherence to treatment plans
- Conducted home visits to assess at-risk populations, ensuring timely interventions and reducing emergency room visits
